

## Experiences of learners at university: a Europe wide study

### An invitation to participate in some important research

We need your help. We are part of a team studying the experiences of students at university (Greenwich, CCCU and the UKC) and the factors which promote success. We are looking for people willing to share their stories of being at university, how they got there and experiences of their journey. This could include formal teaching as well as the more informal aspects of university life.

We are interested in listening to a range of learners, such as:

- the first in your family to go to university
- older learners or those from the local area
- those caring for children or others while studying
- students from a minority background
- students from another country altogether
- those who have done an Access programme
- learners who may have dropped out but have now returned to study

All interviews are done in strict confidence. **We are looking for volunteers who are in the first year of a programme or their final year.** If you are interested in participating in this study then please fill in the form or contact one of the people below.

Name: .....

Email address: .....

Address: .....

Tel No: .....

.....  
.....

**Please send the completed form to:**

Charmian Cowie  
Canterbury Christ University  
North Holmes Road  
Canterbury Kent, CT1 1QU

Alternatively email your details to:

**C.A.Vickerman@kent.ac.uk** or

Linden West or Mehri Holliday on

**linden.west@canterbury.ac.uk** and or **mehri.holliday@canterbury.ac.uk**

**www.canterbury.ac.uk/education/educational-research**

**Many thanks for giving this attention and we look forward to hearing from you.**
