I. Read the following article on getting fit and mark sentences 1 to 7 T (True) or F (False).

My first piece of advice to people who want to start getting fit is: don’t buy an exercise bike. Typically, people who buy them use them for a week or so and then forget about them. They are effective if they are used regularly but you need to be determined. Most people will find it much easier to go for a gentle jog around the park.

As well as being easy to do, jogging is also relatively cheap compared to most other sports. You don’t need to buy expensive clothes if you’re just going running around the park or on the beach. The main thing is that they’re comfortable, and that they keep you warm in the winter and cool in the summer.

There is one piece of equipment, however, that you will have to spend time and money on, and that’s your running shoes. Remember that you are not looking for a fashion item, but for something that will support your feet and protect you from injury. They can be expensive, but if they are good quality they will last you a long time. It’s always best to get expert advice, and the best place for that is a sports shop.

As for the actual jogging, the secret is to start gently, and not to do too much at the beginning – especially if you haven’t had any exercise for a long time. Try a mixture of walking and running for ten minutes about three times a week at first. Once you are happy doing that you can then start to increase the amount you do gradually. After a few months you should hope to be able to run at a reasonable speed for twenty minutes three or four times a week.

It’s important that you feel comfortable with whatever you do. If you do, you’ll start to enjoy it and will probably keep doing it. If it makes you feel uncomfortable, you’ll probably stop after a short time and return to your bad habits. In any case, training too hard is not very effective. Research has shown that somebody who exercises for twice as long or twice as hard as another person doesn’t automatically become twice as fit.

When I was at school, I played some football and rugby. I hated rugby because I couldn’t catch the ball, but I enjoyed football. I started out being a terrible player and nobody wanted me to be on their team. But I started to improve slowly and, after a few years, the other kids in the school accepted me as a player, not a fantastic one, but one who wouldn’t do anything stupid.

When I was at university, I stopped playing sports altogether. I was working too hard, started eating too much, and, worst of all, I started smoking. By the time I was thirty, I was overweight and unfit.

Then one day, I was sitting in the park, smoking a cigarette. I was watching these guys running. They looked slim, fit and healthy, and some of them were much older than me. When I got home, I looked in the bathroom mirror and, well, I suppose I just didn’t like what I saw. At that moment, I decided to stop smoking and change my life. I went to a sports shop, bought myself a pair of running shoes, shorts and a sweatshirt. That evening I went running around the park – for ten minutes! Physically, I felt terrible. Everything was hurting: my legs, my chest. But inside, I did feel good about it.

The next evening, I went again. I still only did ten minutes, but I didn’t feel as I bad as I did the day before. Within a week, I was running for fifteen minutes, then twenty, and after three weeks I ran for thirty minutes without stopping. Quite soon, I was running longer distances and my speed and strength were improving all the time. After six months, I was a runner!

That was five years ago. I now run eight kilometres six times a week and love it. My proudest moment was last year, when I ran my first marathon and finished in under three hours. I’m fitter now than I’ve ever been, and am so glad that I went to sit in the park that day five years ago.
